

IDENTIFICATION OF POSSIBLE SYNERGIES BETWEEN INTERREG PROGRAMMES AND THE INITIATIVE FOR THE SUSTAINABLE DEVELOPMENT OF THE BLUE ECONOMY IN THE WESTERN MEDITERRANEAN MAIN AREAS.

West Med Challenges		West Med Priority areas	Interreg and ENI possible actions in 2014-2020				
			Interreg MED	Interreg IT-FR (Maritime)	Interreg IT-ML	ENI CBC MED	ENI IT-TU
Smarter and future proof economy	1	Strategic research and innovation		X	X		
	2	Skill development				X (Standard call_ possible under Strategic call)	
	3	Maritime Clusters	X (additionally also under AXIS 4)	X		X (Standard call_ possible under Strategic call)	
	4	Coastal and maritime tourism	X (additionally also under AXIS 4)	X		X (Standard call_ possible under Strategic call)	X
	5	Maritime transport (motorways of the sea, greening shipping, sustainable/eco ports) (Climate Change mitigation)		X			
	6	Infrastructure (major projects; including adaptation to Climate Change)					
	7	Sustainable production and consumption, including resource efficiency (e.g. energy and water) pollution prevention and reduction: Marine pollution: marine litter, waste water management	X (additionally also under AXIS 4)	X	X	X (Standard call_ possible under Strategic call)	X
	8	Aquaculture (NB: location of farms is covered by MSP)					X
	9	Renewable ocean energy (Climate Change mitigation)					
Safety and security	10	Coast guard functions cooperation	X (under AXIS 4)				
	11	Training and capacity building	X (under AXIS 4)	X	X		
	12	Maritime traffic data sharing platform	X (under AXIS 4)	X	X		
	13	Maritime Safety. Marine Pollution and Cooperation on pollution response	X (under AXIS 4)	X	X		X
	14	Search and Rescue	X (under AXIS 4)		X		
	15	Migration	X (under AXIS 4)				
Ocean governance	16	MSP/ICZM, land-sea interactions	X (additionally under AXIS 4)		X	X (Standard call)	X
	17	Maritime and marine knowledge (data gaps and sharing)	X (additionally also under AXIS 4)			X (Standard call)	
	18	Climate Change adaptation to sea level rise, including increased coastal erosion		X	X	X (Standard call)	X
	19	Biodiversity, including Marine Protected Areas, protection of cetaceans (collisions, noise pollution), invasive alien species (and jellyfish) etc.	X (additionally also under AXIS 4)	X	X		X
	20	Fisheries.					X
